

TESTED • PROVEN • RELIABLE

*General industry standard is based on 100 MEK Rubs

ASTM 4145

Tested:

Formability

Benefit:

Tested for the tightest bends ensuring outstanding formability.

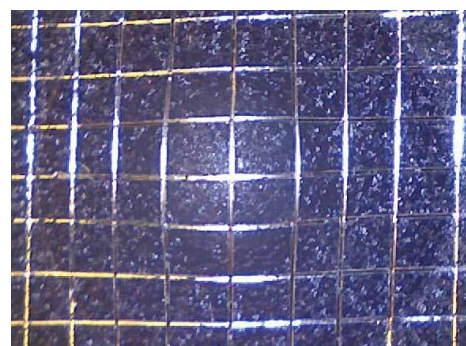

ASTM 5402

Tested:

Solvent Resistance

Benefit:

Passes 150 MEK rubs*, ensuring superior curing of the coating and resistance to solvents.

ASTM 3359

Tested:

Adhesion

Benefit:

Ensuring excellent adhesion of coating to the steel surface.

**AT
STEELSCAPE,
QUALITY
MATTERS**

Steelscape's Rawhide finish is a proven high-performance coating with outstanding resistance to solvents and excellent adhesion and formability.

We pride ourselves in following rigorous quality guidelines that meet or exceed industry standards. If it does not pass, it does not ship. Steelscape's Rawhide finish is a firm clean architectural textured coating that is steel tough.
